Your 3-in-1 Kit

...in ONE Box!

All the ways the **3-in-1 Kit** will save your company time and money!

Purchasing

We help you take all of the fasteners, fittings, hoses and related line items and combine them all into one

3-in-1 Kit.

Receiving

Instead of receiving multiple line items in several shipments, your receiving department now only has to receive one

3-in-1 Kit.

Parts Management

All **3-in-1 Kits** are ordered for the specific units to be used to build your current job(s) without the waste of having extra parts sit in your inventory.

Assembly Department

All parts in your custom **3-in-1 Kits** are labeled for the specific location on the unit that the item needs for installation, eliminating the need for assembly workers to spend extra time having to match specific hoses, fittings or fasteners to each job.

Accounts

With all your parts shipped together in one package or box specifying single part numbers, your accounts payable department can process your PO more efficiently...**SAVING YOUR BUSINESS TIME AND MONEY!** The **3-in-1 Kit!**

Order your customized items for specific jobs on your B.O.M. to reduce them into single line items packaged into your custom All Size Supply 3-in-1 Kit. We individually package and label each item and identify the location it belongs on each machine, job, etc. Each item is now easily accounted for and installed saving your business time and money!

**The All Size Supply 3-in-1 Kit...
YOU WIN! Saving \$\$\$\$\$\$!**
